---Eighty one thousand---

Description: 90 litres diesel fuel purchased for Landcruiser TI 07842 on the black market in Avron. Our vehicle ran short of fuel during the field trip and the only fuel we could purchase was on the black market. The man selling the fuel refused to give his name or sign for the money received as the police have been cracking down on black marketeers. The quantity of fuel is shown in the vehicle log book.
